

**T R Y B**

## **Turn Right Yellow Box**

You ARE permitted to stop in a yellow box when turning right, provided you do not block traffic which has right of way, except at tramways & railway crossings.

**T O T**

## **Tyres on Tarmac**

When stopping in traffic you need to see the back tyres of the car in front of you on the tarmac. This allows you space to move if needed.

## 2 S R - 2 Second Rule

A simple guide to allow space in front. Let the car ahead pass a sign & see if you can say “Only a fool breaks the 2 second Rule”  
If not, you're TOO close.  
Double this on a wet day.

**M S M**

## **Mirror Signal Manoeuvre**

Before you signal, look and  
see who you are talking to.  
Make sure you are safe  
before you move.

**L R L R**

## **Look Right, Left, Right**

Turning left, look both ways  
before you commit.

Right, to see oncoming traffic,  
left to check is it safe and  
right again to make sure  
it's still safe.

# **Vision Position Decision**

Your vision is helped by  
your position;

your position helps  
your decision.
